- The "featured picture" area is optimized for images that are 400 pixels wide and 300 pixels high. It is best to upload a photo that has those dimensions, or is at least proportional. If it is bigger, that's ok, but if it's smaller, it might look distorted. Also your image must be less than 1 megabyte. Contact us if you have questions about how to upload your photo.

- When you're done filling out the form, click the submit button at the bottom.
